DETAILED ACTION

Allowable Subject Matter

Claims 1-11 are allowed. The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record because the teachings of the references taken as a whole do not teach or render obvious the combination set forth, including that of safety latch for a drawer having an L-shaped body having a vertical leg and a horizontal leg extending inwardly from the vertical leg, and an engaging arm projecting from the horizontal leg along a plane parallel to and offset from the vertical leg (claim 1, lines 2-5; claim 6, lines 9-13; and claim 10, lines 3-6), wherein the engaging arm engages a front face of the cabinet, in which the drawer resides, when the drawer is being opened and closed (claim 6, lines 18-20).

The closest prior art of record, U.S. Patent Number 4,717,184 to Boyce, discloses a safety latch for a drawer having a vertical arm, and a horizontal arm that extends from the vertical arm, where the horizontal arm has an engaging arm. However, Boyce does not disclose the engaging arm being in a plane parallel and offset from the vertical arm.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
